Your invitation

Tasmania has 2750 electric vehicles, the highest number per capita in Australia.

Held over three days at Hobart's premier waterfront location PRINCES WHARF NO.1 Hobart.

The 2024 Australian Electric Vehicle Association's National Conference and **Energy Efficiency Electric Expo** introduces a groundbreaking expo showcasing cutting-edge technology, environmental and energy efficiency and the limitless possibilities of electric vehicles. With a primary focus on energy efficiency, this expo is your gateway to explore the latest innovations.
